

BUS SHED

- Replace existing, deteriorating facility with a steel building to house the following:
 - Mechanic's bay
 - Wash bay
 - Storage and office space
 - As a steel building, could be expandable sometime in the future to include inside bus storage
 - Would allow mechanical work on the buses to be done onsite
 - Would be either located at its current site or attached to the CTE building
-

MAINTENANCE SHOP

- Steel building to house all district equipment and storage of materials/supplies
 - Work area for maintenance department
 - Would include open square footage, storage, and small office area
 - Either a standalone facility or attached to the CTE
-
