

Hard Surface Road Only

The Interstate 35 Community School District has developed a *hard surface road only* plan. This contingency plan features regular school bus routes on hard surface roads only. This plan would be implemented only when hard surface roads are fit/safe for travel, but gravel roads are not fit/safe for travel. The purpose of this plan is to provide a bus transportation system on days when it is not possible to run the busses on gravel roads. In situations such as; drifted or icy country gravel roads or soft surface gravel roads, this plan will be implemented.

Interstate 35 Community School District will continue to make every effort to run its bus routes in their entirety every day school is in session. When the district calls for *hard surface roads only*, buses will run with modifications to their routes. If your normal bus stop is on a paved surface road, the pickup and drop off place will remain the same, but have an adjusted time. Students that normally get picked up on a gravel road, please locate your new, closest, bus stop on the *hard surface road only* schedule. Please allow for slow speeds in these conditions.

If it becomes necessary to implement the "*hard surface road only*" schedule, we will notify the public the same way that we presently use for notification of school delays and closings. (KCCI, WHO, WOI, District Facebook Page, District Website, School Messenger Alert, MailChimp Mailing List). When the *hard surface road only* plan is implemented, this plan will remain in effect for both A.M. and P.M. routes for that day, no matter the road conditions.

When the *hard surface road only* plan is implemented, we will follow the attached time schedule as closely as possible. Please remember these are approximations, the exact times may vary somewhat. Students still need to be at their designated stop 5 minutes prior to pickup, to ensure buses stay on a timely schedule.

Transportation Coordinator
Bobbie Finley
